### Accurate, Timely Information for Everyone

The Titan Precast Management System includes scores of features to enable precast manufacturers to successfully manage inventory while improving customer service.

Inventory turnover can be dramatically improved by Titan's simplified precast-specific processes. Dispatch and production processing, bill of materials management, and purchase order processing are all tightly integrated, giving everyone accurate, timely information.

Customer service can be greatly enhanced by the many customer and job inquiry screens available in the Titan system. Inventory profitability can be tightly monitored using the many analytical reports available in Titan.

By making it possible to share vital, accurate information throughout the office, Titan gives precasters the ability to meet customers' expectations, effectively manage production resources, and retain company capital.

### TITAN PURCHASE ORDER PROCESSING-INVENTORY MGT.
