Visual Estimator & Above Ground-Products

Dates: March 21-23, 2023 (3 consecutive days, Tues.-Thurs., from 10 a.m. to 2:30 p.m. each day)

Format: In this interactive seminar we will cover the Visual Estimator and discuss the setup required to use this important Titan element. This seminar is critical for those using Titan for estimating, production, dispatch, and QC for above-ground precast concrete products. It is especially beneficial for those who have a foothold in architectural pieces, box culverts, pre-stressed products, wingwalls, etc. We will practice using sample data, but attendees are welcome to use their own data if preferred.

Class Size: Open to nine students only. If more than nine are interested in attending we will schedule an additional session at a later date.

Price: \$1,000 per attendee
