TITAN 3000 PRECAST MANAGEMENT SYSTEM

Job Cost Processing Agenda

TITAN ONLINE
10:00 a.m. - 3:00 p.m. (each day) – October 22-24, 2024
All times are Eastern Time

Filled with features to analyze and manage costs, Titan's Job Cost Processing module is tightly integrated with our other financial modules to give you a comprehensive look at projects of all sizes, along with the status of your capital equipment and facilities. General Ledger, Payroll, Accounts Payable, Purchase Order Processing, Inventory Management, Accounts Receivable, CRM and Document Management all work seamlessly with the Job Cost Processing module.

In this deep dive seminar, our expert instructors will show attendees how to: create job estimates and budgets by phase and cost code; compare and analyze budgeted amounts versus actual expenditures; copy job estimates by job or job template; assign and monitor job assignments by task category or individual employee, and much more. This versatile module puts vital cost information at your fingertips to manage and control costs and enhance your bottom line.. **Successful completion of the seminar includes three credits** toward Gladiator Certification.
