

# Titan 3000 Precast & Prestress Management System

## Inter-Company Accounting

### FEATURES

- » Multiple Companies Share One Database
- » Individual Company Trial Balances and Financials
- » Consolidated Financial Statements
- » Share Production Resources
- » Share Shipping Resources
- » Share Customers
- » Share Vendors
- » Share Product Codes
- » Multiple Companies Can Process a Single Job
- » "Due to/Due from" Inter-Company Transactions Can Be Automatically Created
- » Print All Reports by Company
- » Print All Reports Combined

### Multiple Companies: One Cohesive Unit

Unique and powerful, Titan's "Inter-Company Accounting" feature enables multiple companies to work as one cohesive unit. Related companies can now be combined under one database while maintaining individual trial balances and financial statements.

Multiple companies can seamlessly process a single job in Titan. Sales and expenses will be automatically attributed to individual companies. Inter-company general ledger transactions can automatically be created, accurately reflecting "due to/due from" scenarios.

Sharing production resources, shipping resources, customers, vendors and product codes dramatically reduces database maintenance while increasing resource utilization.

All reports, including sales, receivables, payables, inventory and financial reports, can be printed individually, by company or combined.
